

Welcome to the School of Music in Piteå! We're so glad you want to study here in the north of Sweden.

One week before the school year officially starts, we are holding an introductory period called "NolleP".

"But what is NolleP!?" you're probably thinking with terror and discouragement, seeing weeks of penalism and humiliation before your eyes. However, that's not the case! The introductory period we hold at Campus Piteå via the Luleå University of Technology takes place throughout one week (the 21st - 27th of August) and consists of entertainment, experiences, and assignments, all to give you as fun of an introduction as possible to your coming life as a student at LTU.

The 21st of August we'll meet at 09:00 at the School of Music. The day will begin with you getting the chance to meet your future classmates and programme supervisor, and the opportunity to set up the practical basics for the start of your studies. Then, you'll get a tour of the campus where you'll get to know both your classmates and your place of study. During the rest of the days you'll, amongst other things, get to experience a lot of different activities, competitions, music, and dance! For you to be able to participate, we recommend that you bring clothes that fit the weather, since many activities will be held outdoors. A more detailed schedule for the week will be available closer to the start of the school year.

In Piteå we hold our unique and traditional role-playing game. This will be ongoing throughout the whole introductory week as a part of NolleP.

We hope that you'll join us and again wish you a warm welcome! If for some reason you can't be with us for the whole week, you're obviously welcome to jump in at any moment. However, we recommend whole-heartedly that you'll be part of the fun from the very first day!

Sincerely,
NPG Piteå (nolleperiodsgruppen)
nollep@pitestudent.se
and the Piteå student section

If you have any questions regarding the introductory period you're welcome to reach out to any one of us!
